

### **EPQ Summer Learning**

Although sign-up for the EPQ doesn't open until October, it would be great to come to that first session with some ideas in mind, even if it's not what you eventually end up doing your project on!

With that in mind, please do the following over the summer:

- Find three sources (documentaries, articles, books, podcasts etc) which relate to your topic.
- Write a review of each, explaining the arguments it develops, whether they agree/disagree with your own opinions and whether you think you can trust them as a source.
