

## **GCSE Design & Technology- Graphics- KS4 (Summer Learning 2017)**

**1. What products, services and software have you used this week that are a result of technologies that have been common in the last 30 years?**

For example:

- PC
- Telephone
- I phone
- Tablet
- Internet

**2. Research 2 of these things:**

Make sure you include the following information:

- Date it was invented/ launched
- Founder/ inventor
- Where is it manufactured (if applicable)
- Consumers
- Anything else relevant

**3. Where do you think technology will take us in the next 20 years time? (ie what new products/ services will there be?)**

Present your findings in one of the following forms:

- PowerPoint presentation
- Booklet/ leaflet
- Poster

Each person will present their findings back to the class in September

**Should you wish to complete any further background reading prior to starting the Graphic Product GCSE please access the online material below and view the sample material on the right-hand side of the webpage:**
