Bonolo	Woracker	RAG club - Raising and Giving Club		G21		Y							Fundraising and raising money for charitable causes. Mindmapping ideas, fundraising and creating activities for helping groups in society and abroad.
Chris	Dukes	Table Tennis		Activity studio		Y							Table tennis is a fun and physical activity. It's easy to play, but difficult to master. There are so many variations of table tennis, so you'll always have more challenges to look forward to. Playing improves hand-eye coordination and it stimulates mental alertness, concentration and tactical strategy. This makes it the perfect game for young people to sharpen reflexes and to refine tactics around the table.  Anyone of any skill level can pick up a bat, and immediately have fun playing. You don't really need any skill to enjoy yourself, but with every shot played you quickly become more confident.

Yusuf	Mohammed	Science Club		S47	Tim Oates, Keith Darkins	Y							The Science Club provides a unique opportunity to experience some of the more entertaining aspects of science that are not always covered by the national curriculum. Often in science lessons there is simply not enough time for all students to safely undertake many of the experiments and activities that are demonstrated by the teacher (as the most entertaining experiments are inevitably the most hazardous). The science club provides an environment for a small group of students to safely undertake these exciting experiments themselves and students will be positively encouraged to suggest their own ideas for experiments and investigations throughout the term.
