

Year 9 summer learning (for current year 8) 2018

Prepare a poster each about the following biomes:

Tropical rainforests

Tundra

Taiga

Desert

Include the following things in your poster:

Location of the biome on world map (include a world map to show the location)

Which animals and plants are in the biome?

How have animals and plants adapted to live in the biome? (include annotated photos)

Temperature and rainfall (Include a graph to show this)

Challenge: What are the threats to these biomes? Include both direct and indirect threats (for example acid rain, deforestation etc)
