EExAT – A Parent's Guide

Early Excellence
Centre for Inspirational
Learning

How we get to know your children.

- Talking to the nursery s/he attended.
- Look at the children's records from another setting
- Talking to you about the things they can do.
- Talking to your child
- Playing alongside your child
- Watching your child playing and talking to others.

Look, listen and note!

- Sometimes we may make a note of something your child does or say as this will help us to recall this when the time comes to make an assessment.
- This could be a note, a photo or a short video clip.
- We refer to these notes as 'observations' or 'evidence'
- Some of these special notes we want to share with you and we will put these into a child's learning journal.

Be involved!

- Share your own information with us, this may be a note or a photograph.

Register and Access

The Early Excellence Assessment Tracker (EExAT) is the new online assessment system developed by Early Excellence. It provides a much needed solution to assessment and accountability, offering a forward thinking, highly principled, and extremely practical solution to support good assessment practice in early years.

EExAT has three integrated modules that work together to create a complete assessment system. Module One is the heart of the system, offering a framework for assessing and tracking, attainment and progress. Module Two makes documenting children's learning easy with a mobile app for collecting evidence linked to online learning journals, and moderation activities. Module Three enables Local Clusters, Academy Groups, and MATs to work collaboratively and share data. To use EExAT as your fully integrated online assessment system, you will need to sign-up, select your preferred modules and book to attend training. This process is completed online where you will find step by step guidance on how to complete your registration.

Welcome

EExAT, The Early Excellence Assessment Tracker, is a new online assessment system developed by Early Excellence. It is designed to capture key moments of your child's learning and development, which then helps the teacher/key person to plan new experiences and activities for your child. EExAT is for children aged 0-5years and can be used in schools and settings (nurseries, pre-schools, children's centres and childminders).

Your Children

You can share evidence with your child's teacher by clicking through "Submit Evidence" and choosing what piece of evidence you wish to share with their teacher.

Please check your children's details are correct. If incorrect, please contact the teacher-key person who supplied you with the access code. Please do not contact the helpdesk as this error is related to the access code given to you by a teacher-key person.
