## Re: Replacement of tile-cladding

Tuesday 8<sup>th</sup> November 2022

Dear Parent/Carer,

This letter is to update you on the replacement of the tile cladding on all exterior walls of the secondary academy building, this follows on from previous communication to parents/carers by Mr Haines.

This is a significant issue, which unfortunately will take a long period to complete. Over the summer holidays and recently, I have attended key meetings with the architects and builders originally responsible for the building design to agree the works required, measures to minimise disruption to learning and the timeline. We are now at the point where we have a timeline and the details of this will be shared in due course, with the end date of approximately December 2023.

The next step is for phase one of scaffolding to be erected around the whole of the secondary academy building, which hopefully will start on 21<sup>st</sup> November 2022. We appreciate that this will cause an element of disruption. Ark Estates team are supporting the academy with this and ensuring that all health and safety, as well as safeguarding measures are in place.

If you have any further questions, please email [info@isaacnewtonacademy.org](mailto:info@isaacnewtonacademy.org).

Yours sincerely,

Mr Crowther-Green  
Assistant Principal – Operations
